202 | INDUSTRIAL FLASHLIGHTS

FIREBOX® FLASHLIGHTS

Turn up the brightness with industrial-strength, rechargeable and portable, **FireBox® Flashlights**. They feature a **Halogen®** bi-pin bulb with a 100-hour life and two programmable ultra-bright blue tail-light LEDs with 100,000 hours of life. Choose from multiple-operation modes, including "Steady" or "Blinking" for the LED and/or **Halogen** bulb. 6V, 12Ah battery operates up to nine hours per charge and can be recharged up to 500 times. Red and green LEDs give charge status feedback. Lantern is made of high-impact ABS thermoplastic and includes a toggle switch, rubberized impact bumper, lens ring, cushioned-grip handle and reinforced D-rings.

VULCAN® FLASHLIGHTS

The introduction of **Streamlight's® Vulcan®** several years ago represented a major breakthrough in flashlight technology. It was the first safety-approved, compact, waterproof lantern that was big on power. And it still is! Tough as ever, this industrial-duty light is virtually impossible to destroy. Struck by falling buildings, heavy equipment and even scorched by fire, the **Vulcan** keeps on beaming. Plus it's rechargeable, with 3¼ hours of run time between charges, making it ideal for the most demanding jobs.

FIRE VULCAN® FLASHLIGHTS

Staying safe is the main reason **Streamlight®** makes **Fire Vulcan® Flashlights**. Because in a smoke-filled room, it's just as important to be seen as it is to see. In addition to its high-intensity **Halogen®** lamp, the rechargeable **Fire Vulcans** have two powerful, ultra-bright, blue LED tail-lights. Plus, their three-position toggle switches make it easy to go between strobe and steady modes, while their quick-release straps makes them easy to carry.

FIRE VULCAN® LED FLASHLIGHT

In an emergency situation time is of the essence so depend on the **Fire Vulcan® LED Flashlight** to see and be seen. With its orange ABS thermoplastic housing the **Fire Vulcan** is easy to find. And, it's no problem to carry around since it weighs under two pounds. Features include a rubberized, cushioned handle and a shoulder strap. Lantern is even okay to use around water because it floats. Fits **Vulcan** chargers.

SURVIVOR® CLASS 1, DIVISION 1 LED FLASHLIGHTS

Streamlight's® Survivor® LED Flashlight is one of the brightest, right-angle LED flashlights in the world! This lightweight, hand-held flashlight is designed for use in hazardous situations, thanks to C4 LED™ technology. The LED Survivor provides the right type of light for a broad range of activities: structural firefighting, EMS, extrication, technical rescue and more. The rechargeable battery lasts up to four hours. And, if you need a fast backup, use the alkaline battery pack for up to 14 more hours of light! The Survivor® LED is water and shock resistant. It has microprocessor-controlled high and low lighting modes, plus an emergency flash mode.

STRION® & STRION® LED RECHARGEABLE FLASHLIGHTS

The only thing brighter than **Streamlight's® Strion® & Strion® LED Rechargeable Flashlights** is the technology that makes them possible. Ultra-compact and powerful, these flashlights feature **Streamlight's** exclusive lithium ion batteries that recharge up to 300 times, and, in just about three hours. They are tough too, thanks to machined aircraft aluminum cases, anodized for longevity. Flashlights also feature overcharge protection and the LED version offers three variable intensity modes, strobe mode and the latest in power LED technology – **C4™**. Black.

Flash Light Farther With Streamlight®

STINGER® FLASHLIGHTS

Stinger® Flashlights are the most powerful lights ever made in their size – outshining everything in their class, so you can too! Compact and super-bright, these rechargeable, lightweight personal lights are virtually indestructible, thanks to superior materials and craftsmanship. They're even serialized for positive identification and come with either Xenon® gas-filled bi-pin bulbs (with variable spot to flood beam and 30-hour life) or 50,000-hour C4 LEDs™ that are impervious to shock – guaranteed. Other standard features include an LED charge-continuity indicator and snap-in chargers that mount in any position. Their nickel-cadmium batteries recharge up to 1,000 times as well.

VANTAGE™ HELMET MOUNTED TACTICAL LIGHT

Here's a performance-oriented solution to hands-free lighting needs, Streamlight's® **Vantage™** – a compact, powerful, shock-proof and virtually indestructible **Helmet-Mounted Tactical Light**. Thanks to its low-profile design, **Vantage** easily attaches/detaches above or below brim on fire helmets, industrial helmets and hard hats. It uses **C4 LED™** technology that is two to three times brighter than standard LEDs. It also features an ultra-bright blue taillight LED and rotates 360 degrees for optimum convenience. Made from anodized aircraft aluminum and uses two 3V lithium batteries (included). IPX7 rated waterproof to one meter for 30 minutes, too.

ARGO® LED HEADLAMP

This sophisticated light features a state-of-the-art **C4 LED™** to deliver the longevity of an LED – and the brightness and range of a conventional bulb. Remarkably efficient and lightweight, the **Argo®** offers three digitally controlled brightness levels and a "blink" (flashing) mode for emergency signaling. And, the **Argo** is digitally controlled, so it regulates its output to maintain consistent levels of light. Choose the ideal power level for the task, hands-free. It also features an indicator that shows remaining battery power. Plus, the 50,000-hour LED never needs replacing. Includes adjustable straps for a comfortable, secure fit and batteries.
