DEFIBRILLATORS

HeartSine's Samaritan® Pad AED was designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system. Battery and electrode pads are incorporated into an "all-in-one" **Pad-Pak™** sharing a single expiry date. Designed for the minimally trained rescuer, the semi-automatic **Samaritan PAD** has both visual prompts along with voice/icon prompts for easy instruction. With a lightweight system (2.4 lbs.), escalating energy (150/150/200 Joules), continuous ECG recording time (45 minutes), a seven year warranty and up to six hours of operating time, the **Samaritan PAD** is an overall smart choice. Includes: **Samaritan Defibrillator**, adult pad-pak, storage/carrying case, data port, quick instruction card, user manual and CPR poster. Medical Authorization Form included with sale of each unit.

NOTE: Good Samaritan laws provide limited immunity for AED owners.
